VOYO.iO

Mobile App for Consumers & Small Fleets

The **VOYO** app is designed for consumers and small fleets. Based on OEM level telematics, the app includes many of the advanced features offered on the VOYO platform. Options are available to partners to include a combination of equivalent features in their branded mobility apps.

ALERTS
Up to 20 real time safety and malfunction warnings including driver behavior

OPERATING DATA
Monitor tire pressure, oil life, fuel level, odometer, and battery health

SCAN PRO
Read OEM diagnostic codes from all car controllers; review official recalls

DESCRIPTIONS
Consumer level code descriptions and fixes accessed within app; clear codes

VOYOLINK
Connect to up to three repair shops of your choice for remote support

TRIP DATA
Display routes and track time driving, mileage, and fuel use trip by trip

FLEET VIEW
Monitor a network of cars in real time from a single screen, by vehicle or driver

SNAPSHOT
Monthly summary of vehicle use and performance (also sent by email)

DATA SHARING
Information and alerts shared with multiple users in-app, by SMS or email
